

## HSPA1L Antibody (C-term)

Catalog_no :	AB0635
Applications :	WB, IHC-P, FC
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:576-603
Specificity :	This HSPA1L antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 576-603 amino acids from the C-terminal region of human HSPA1L.
Source :	Rabbit
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Heat shock 70 kDa protein 1-like;
Isotype :	Rabbit Ig
Background :	In cooperation with other chaperones, Hsp70s stabilize preexistent proteins against aggregation and mediate the folding of newly translated polypeptides in the cytosol as well as within organelles. These chaperones participate in all these processes through their ability to recognize nonnative conformations of other proteins. They bind extended peptide segments with a net hydrophobic character exposed by polypeptides during translation and membrane translocation, or following stress-induced damage.
