

LY6G6C Antibody (C-term)

Catalog_no :	AB0792
Applications :	WB, IHC-P
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:62-90
Specificity :	This LY6G6C antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 62-90 amino acids from the C-terminal region of human LY6G6C.
Dilution :	WB,1:1000;IHC-P,1:50~100;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Lymphocyte antigen 6 complex locus protein G6c, LY6G6C, C6orf24, G6C, NG24
Isotype :	Rabbit Ig
Background :	LY6G6C belongs to a cluster of leukocyte antigen-6 (LY6) genes located in the major histocompatibility complex (MHC) class III region on chromosome 6. Members of the LY6 superfamily typically contain 70 to 80 amino acids, including 8 to 10 cysteines. Most LY6 proteins are attached to the cell surface by a glycosylphosphatidylinositol (GPI) anchor that is directly involved in signal transduction (Mallya et al., 2002 [PubMed 12079290]).
