

## SNRPB2 Antibody (N-term)

|                |   |
|----------------|---|
| Catalog_no :   | AB1042  |
| Reactivity :   | H   |
| Category :     | 抗原抗体  |
| Size :         | 100 $\mu$ L/50 $\mu$ L  |
| Immunogen :    | HUMAN:1-30  |
| Specificity :  | This SNRPB2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1-30 amino acids from the N-terminal region of human SNRPB2.   |
| Dilution :     | WB,1:1000;  |
| Purification : | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.  |
| Other_name :   | U2 small nuclear ribonucleoprotein B", U2 snRNP B", SNRPB2  |
| Isotype :      | Rabbit Ig   |
| Background :   | The protein encoded by this gene associates with stem loop IV of U2 small nuclear ribonucleoprotein (U2 snRNP) in the presence of snRNP-A'. The encoded protein may play a role in pre-mRNA splicing. Autoantibodies from patients with systemic lupus erythematosus frequently recognize epitopes on the encoded protein. Two transcript variants encoding the same protein have been found for this gene. |
