

WDR3 Antibody (N-term)

Catalog_no :	AB1058
Applications :	WB
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:208-236
Specificity :	This WDR3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 208-236 amino acids from the N-terminal region of human WDR3.
Dilution :	WB,1:1000;FC,1:10~50;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	WD repeat-containing protein 3, WDR3
Isotype :	Rabbit Ig
Background :	This gene encodes a nuclear protein containing 10 WD repeats. WD repeats are approximately 30- to 40-amino acid domains containing several conserved residues, which usually include a trp-asn at the C-terminal end. Proteins belonging to the WD repeat family are involved in a variety of cellular processes, including cell cycle progression, signal transduction, apoptosis, and gene regulation.
