

DSN1 Antibody (C-term)

Catalog_no :	AB1097
Applications :	WB
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:257-286
Specificity :	This DSN1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 257-286 amino acids from the C-terminal region of human DSN1.
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Kinetochoore-associated protein DSN1 homolog, DSN1, C20orf172, MIS13
Isotype :	Rabbit Ig
Background :	This gene encodes a kinetochoore protein that functions as part of the minichromosome instability-12 centromere complex. The encoded protein is required for proper kinetochoore assembly and progression through the cell cycle. Alternative splicing results in multiple transcript variants.
