Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Homeobox protein MOX-1, Mesenchyme homeobox 1, MEOX1, MOX1
Isotype :	Rabbit Ig
Background :	This gene encodes a member of a subfamily of non-clustered, diverged, antenpedia-like homeobox-containing genes. The encoded protein may play a role in the molecular signaling network regulating somite development. Alternatively spliced transcript variants encoding different isoforms have been described.
