

SNX2 Antibody (C-term)

Catalog_no :	AB1476
Applications :	WB
Reactivity :	H
Category :	抗原抗体
Size :	100 μ L/50 μ L
Immunogen :	HUMAN:457-485
Specificity :	This SNX2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 457-485 amino acids from the C-terminal region of human SNX2.
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Sorting nexin-2, Transformation-related gene 9 protein, TRG-9, SNX2
Isotype :	Rabbit Ig
Background :	This gene encodes a member of the sorting nexin family. Members of this family contain a phox (PX) domain, which is a phosphoinositide binding domain, and are involved in intracellular trafficking. This protein associates with formin-binding protein 17, but its function is unknown. This protein may form oligomeric complexes with family members.
