

## TTYH1 Antibody (N-term)

Catalog\_no: AB1762

Applications: WB

Reactivity: H

Category: 抗原抗体

Size:  $100\mu L/50\mu L$ 

Immunogen: HUMAN:2-28

Specificity: This TTYH1 antibody is generated from rabbits immunized with a KLH conjugated

synthetic peptide between 2-28 amino acids from the N-terminal region of human

TTYH1.

Dilution: WB,1:1000;

Purification: Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This

antibody is purified through a protein A column, followed by peptide affinity

purification.

Other\_name: Protein tweety homolog 1, hTTY1, TTYH1

Isotype: Rabbit Ig

Background: This gene encodes a member of the tweety family of proteins. Members of this family

function as chloride anion channels. The encoded protein functions as a

calcium(2+)-independent, volume-sensitive large conductance chloride(-) channel. Two transcript variants encoding distinct isoforms have been identified for this gene.

danseript variants encounty distinct isotomis have been identified for this gene.
