

## FBXL19 Antibody (C-term)

Catalog_no :	AB1790
Applications :	WB
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:543-570
Specificity :	This FBXL19 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 543-570 amino acids from the C-terminal region of human FBXL19.
Dilution :	WB,1:2000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	F-box/LRR-repeat protein 19, F-box and leucine-rich repeat protein 19, FBXL19, FBL19
Isotype :	Rabbit Ig
Background :	Members of the F-box protein family, such as FBXL19, are characterized by an approximately 40-amino acid F-box motif. SCF complexes, formed by SKP1 (MIM 601434), cullin (see CUL1; MIM 603134), and F-box proteins, act as protein-ubiquitin ligases. F-box proteins interact with SKP1 through the F box, and they interact with ubiquitination targets through other protein interaction domains (Jin et al., 2004 [PubMed 15520277]).[supplied by OMIM].
