

EXTL1 Antibody (C-term)

Catalog_no :	AB1796
Applications :	WB
Reactivity :	H, M
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:649-676
Specificity :	This EXTL1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 649-676 amino acids from the C-terminal region of human EXTL1.
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Exostosin-like 1, Exostosin-L, Glucuronosyl-N-acetylglucosaminyl-proteoglycan 4-alpha-N-acetylglucosaminyltransferase, Multiple exostosis-like protein, EXTL1, EXTL
Isotype :	Rabbit Ig
Background :	This gene is a member of the multiple exostoses (EXT) family of glycosyltransferases, which function in the chain polymerization of heparan sulfate and heparin. The encoded protein harbors alpha 1,4- N-acetylglucosaminyltransferase activity, and is involved in chain elongation of heparan sulfate and possibly heparin.
