

## HHCM Antibody (C-term)

|                |                                                                                                                                                                              |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog_no :   | AB1803                                                                                                                                                                       |
| Applications : | WB                                                                                                                                                                           |
| Reactivity :   | H                                                                                                                                                                            |
| Category :     | 抗原抗体                                                                                                                                                                         |
| Size :         | 100μL/50μL                                                                                                                                                                   |
| Immunogen :    | HUMAN:341-368                                                                                                                                                                |
| Specificity :  | This HHCM antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 341-368 amino acids from the C-terminal region of human HHCM.         |
| Dilution :     | WB,1:1000;                                                                                                                                                                   |
| Purification : | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification. |
| Other_name :   | Hepatocellular carcinoma protein HHCM                                                                                                                                        |
| Isotype :      | Rabbit Ig                                                                                                                                                                    |
| Background :   | The function of this protein remains unknown.                                                                                                                                |
