

STX11 Antibody(N-term)

Catalog_no :	AB1922
Applications :	WB
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:29-56
Specificity :	This STX11 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 29-56 amino acids from the N-terminal region of human STX11.
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Syntaxin-11, STX11
Isotype :	Rabbit Ig
Background :	This gene encodes a member of the syntaxin family. Syntaxins have been implicated in the targeting and fusion of intracellular transport vesicles. This family member may regulate protein transport among late endosomes and the trans-Golgi network. Mutations in this gene have been associated with familial hemophagocytic lymphohistiocytosis.
