

## BRAP Antibody(N-term)

Catalog_no :	AB1959
Applications :	WB, FC, IF
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:66-95
Specificity :	This BRAP antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 66-95 amino acids from the N-terminal region of human BRAP.
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	BRCA1-associated protein, 632-, BRAP2, Impedes mitogenic signal propagation, IMP, RING finger protein 52, Renal carcinoma antigen NY-REN-63, BRAP ( <a href="#">HGNC:1099</a> ), RNF52
Isotype :	Rabbit Ig
Background :	The protein encoded by this gene was identified by its ability to bind to the nuclear localization signal of BRCA1 and other proteins. It is a cytoplasmic protein which may regulate nuclear targeting by retaining proteins with a nuclear localization signal in the cytoplasm.
