

LLGL2 Antibody (C-term)

Catalog_no :	AB2062
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN:940-973
Specificity :	This LLGL2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 940-973 amino acids from the C-terminal region of human LLGL2.
Dilution :	WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.
Other_name :	Lethal(2) giant larvae protein homolog 2, HGL, LLGL2
Isotype :	Rabbit Ig
Background :	The lethal (2) giant larvae protein of Drosophila plays a role in asymmetric cell division, epithelial cell polarity, and cell migration. LLGL2 is a protein similar to lethal (2) giant larvae of Drosophila. In fly, the protein's ability to localize cell fate determinants is regulated by the atypical protein kinase C (aPKC). In human, this protein interacts with aPKC-containing complexes and is cortically localized in mitotic cells.
