

LAF4 Antibody (C-term)

Catalog_no :	AB2369
Reactivity :	H, M
Category :	抗原抗体
Size :	100 μ L/50 μ L
Immunogen :	HUMAN:1197-1227
Specificity :	This LAF4 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1197-1227 amino acids from the C-terminal region of human LAF4.
Dilution :	WB,1:2000;WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, eluted with high and low pH buffers and neutralized immediately, followed by dialysis against PBS.
Other_name :	AF4/FMR2 family member 3, Lymphoid nuclear protein related to AF4, Protein LAF-4, AFF3, LAF4
Isotype :	Rabbit Ig
Background :	Lymphoid nuclear protein related to AF4 (LAF4) is related to MLLT2 which is also referred to as AF4. LAF4 is a tissue-restricted nuclear transcriptional activator that is preferentially expressed in lymphoid tissue. Isolation of LAF4 has defined a highly conserved LAF4/MLLT2 gene family of nuclear transcription factors that may function in lymphoid development and oncogenesis.
