

## PRKCDBP Antibody (Center)

Catalog_no :	AB2542
Reactivity :	H
Category :	抗原抗体
Size :	100 $\mu$ L/50 $\mu$ L
Immunogen :	HUMAN:113-144
Specificity :	This PRKCDBP antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 113-144 amino acids from the Central region of human PRKCDBP.
Dilution :	WB,1:1000;WB,1:1000;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.
Other_name :	Protein kinase C delta-binding protein, Cavin-3, Serum deprivation response factor-related gene product that binds to C-kinase, hSRBC, PRKCDBP, SRBC
Isotype :	Rabbit Ig
Background :	PRKCDBP was identified as a binding protein of the protein kinase C, delta (PRKCD). The expression of this protein in cultured cell lines is strongly induced by serum starvation, and was found to be down-regulated in various cancer cell lines, suggesting the possible tumor suppressor function of this protein.
