

UTY Antibody (C-term)

Catalog_no :	AB2650
Reactivity :	H
Category :	抗原抗体
Size :	100 μ L/50 μ L
Immunogen :	HUMAN:1247-1276
Specificity :	This UTY antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1247-1276 amino acids from the C-terminal region of human UTY.
Dilution :	WB,1:1000;FC,1:10~50;IF,1:10~50;
Purification :	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Other_name :	Histone demethylase UTY, 11411-, Ubiquitously-transcribed TPR protein on the Y chromosome, Ubiquitously-transcribed Y chromosome tetratricopeptide repeat protein, UTY, KDM6C
Isotype :	Rabbit Ig
Background :	UTY encodes a protein containing tetratricopeptide repeats which are thought to be involved in protein-protein interactions. This protein is a minor histocompatibility antigen which may induce graft rejection of male stem cell grafts.
