

Mouse Epha6 Antibody (C-term)

Catalog_no :	AB3062
Reactivity :	H, M
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN
Specificity :	This Mouse Epha6 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 930-961 amino acids from the C-terminal region of Mouse Epha6.
Dilution :	WB,1:1000;
Other_name :	Ephrin type-A receptor 6, EPH homology kinase 2, EHK-2, Epha6, Ehk-2, Ehk2
Isotype :	Rabbit Ig
Background :	Receptor tyrosine kinase which binds promiscuously GPI- anchored ephrin-A family ligands residing on adjacent cells, leading to contact-dependent bidirectional signaling into neighboring cells. The signaling pathway downstream of the receptor is referred to as forward signaling while the signaling pathway downstream of the ephrin ligand is referred to as reverse signaling (By similarity).
