

HOOK2 Antibody (N-term)

Catalog_no :	AB3351
Reactivity :	H
Category :	抗原抗体
Size :	100μL/50μL
Immunogen :	HUMAN
Specificity :	This HOOK2 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 162-197 amino acids from the N-terminal region of human HOOK2.
Dilution :	WB,1:2000;
Other_name :	Protein Hook homolog 2, h-hook2, hHK2, HOOK2
Isotype :	Rabbit Ig
Background :	Component of the FTS/Hook/FHIP complex (FHF complex). The FHF complex may function to promote vesicle trafficking and/or fusion via the homotypic vesicular protein sorting complex (the HOPS complex). Contributes to the establishment and maintenance of centrosome function. May function in the positioning or formation of aggresomes, which are pericentriolar accumulations of misfolded proteins, proteasomes and chaperones.
