

## CHRN2 Antibody (N-Term)

|               |  |
|---------------|--|
| Catalog_no :  | AB3465   |
| Reactivity :  | H, M, Rat  |
| Category :    | 抗原抗体   |
| Size :        | 100μL/50μL   |
| Immunogen :   | HUMAN  |
| Specificity : | This CHRN2 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 66-100 amino acids from human CHRN2.  |
| Dilution :    | WB,1:2000;   |
| Other_name :  | Neuronal acetylcholine receptor subunit beta-2, CHRN2  |
| Isotype :     | Rabbit Ig  |
| Background :  | After binding acetylcholine, the AChR responds by an extensive change in conformation that affects all subunits and leads to opening of an ion-conducting channel across the plasma membrane permeable to sodium ions.                                     |
