

## **DENR Antibody**

Catalog\_no: AB3471

Reactivity: H

Category: 抗原抗体

Size:  $100\mu L/50\mu L$ 

Immunogen: HUMAN

Specificity: This DENR antibody is generated from a mouse immunized with a recombinant protein

of human DENR.

Dilution: IF,1:25;FC,1:25;IHC-P,1:25;WB,1:1000-1:2000;

Other\_name: Density-regulated protein, DRP, Protein DRP1, Smooth muscle cell-associated protein 3,

SMAP-3, DENR, DRP1

Isotype: IgG2b,κ

Background: May be involved in the translation of target mRNAs by scanning and recognition of the

initiation codon. Involved in translation initiation; promotes recruitmnet of aminoacetyled initiator tRNA to P site of 40S ribosomes. Can promote release of deacylated tRNA and mRNA from recycled 40S subunits following ABCE1-mediated dissociation of post-termination ribosomal complexes into subunits. Plays a role in the modulation of the translational profile of a subset of cancer-related mRNAs when

recruited to the translational initiation complex by the oncogene MCTS1.
