

DEDD2 Antibody (N-Term)

| | |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog_no : | AB3552 |
| Reactivity : | H |
| Category : | 抗原抗体 |
| Size : | 100 μ L/50 μ L |
| Immunogen : | HUMAN |
| Specificity : | This DEDD2 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 43-75 amino acids from human DEDD2. |
| Dilution : | WB,1:1000; |
| Other_name : | DNA-binding death effector domain-containing protein 2, DED-containing protein FLAME-3, FADD-like anti-apoptotic molecule 3, DEDD2, FLAME3 |
| Isotype : | Rabbit Ig |
| Background : | May play a critical role in death receptor-induced apoptosis and may target CASP8 and CASP10 to the nucleus. May regulate degradation of intermediate filaments during apoptosis. May play a role in the general transcription machinery in the nucleus and might be an important regulator of the activity of GTF3C3. |
