

## GBA2 Antibody (Center)

Catalog\_no : AB3692

Reactivity : H, M

Category : 抗原抗体

Size : 100μL/50μL

Immunogen : HUMAN

Specificity : This GBA2 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 593-623 amino acids from the Central region of human GBA2.

Dilution : WB,1:2000;

Other\_name : Non-lysosomal glucosylceramidase, NLGase, 3.2.1.45, Beta-glucocerebrosidase 2, Beta-glucosidase 2, Glucosylceramidase 2, GBA2, KIAA1605

Isotype : Rabbit Ig

Background : Non-lysosomal glucosylceramidase that catalyzes the conversion of glucosylceramide (GlcCer) to free glucose and ceramide. Involved in sphingomyelin generation and prevention of glycolipid accumulation. May also catalyze the hydrolysis of bile acid 3-O-glucosides, however, the relevance of such activity is unclear *in vivo*. Plays a role in central nervous system development. Required for proper formation of motor neuron axons.
