

REG3G Antibody

Catalog_no: AB3697

Reactivity: H

Category: 抗原抗体

Size: $100\mu L/50\mu L$

Immunogen: HUMAN

Specificity: This REG3G antibody is generated from a mouse immunized with a recombinant protein

of human REG3G.

Dilution: IHC-P,1:25;WB,1:1000;

Other_name: Regenerating islet-derived protein 3-gamma, REG-3-gamma, Pancreatitis-associated

protein 1B, PAP-1B, Pancreatitis-associated protein IB, PAP IB, Regenerating isletderived protein III-gamma, REG III, Reg III-gamma, Regenerating islet-derived protein 3-gamma 16.5 kDa form, Regenerating islet-derived protein 3-gamma 15 kDa form,

REG3G, PAP1B

Isotype: IgG1,k

Background: Bactericidal C-type lectin which acts exclusively against Gram-positive bacteria and

mediates bacterial killing by binding to surface-exposed carbohydrate moieties of peptidoglycan. Restricts bacterial colonization of the intestinal epithelial surface and consequently limits activation of adaptive immune responses by the microbiota. The uncleaved form has bacteriostatic activity, whereas the cleaved form has bactericidal

activity against L.monocytogenes and methicillin-resistant S.aureus. Regulates

keratinocyte proliferation and differentiation after skin injury.
