

## Cy7-小鼠抗猴IgG(H&L)

|                     |   |
|---------------------|---|
| Catalog_no :        | AD9879  |
| Applications :      | E, IH, IF, FC   |
| Reactivity :        | Mk  |
| Category :          | 抗原抗体  |
| Size :              | 100µl/1ml   |
| Immunogen :         | Monkey IgG  |
| Formulation :       | Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.02% Sodium Azide            |
| Source :            | Mouse   |
| Dilution :          | IHC (1/200 - 1/1000), IF (1/200 - 1/1000), FCM (1/2000 - 1/4000), Elisa (Use at an assay dependent concentration) |
| Purification :      | The antibody was isolated from ascitic by immunoaffinity chromatography using antigens coupled to agarose beads.  |
| Storage_stability : | -20°C/1 year  |
| Other_name :        | Cy7-Mouse Anti-Monkey IgG (H&L);Mouse Anti-Monkey IgG (H&L) - Cy7   |
| description :       | Cy7-Mouse Anti-Monkey IgG (H&L);Mouse Anti-Monkey IgG (H&L) - Cy7   |
