

## INVS Polyclonal Antibody

|                     |                                                                                                                       |
|---------------------|-----------------------------------------------------------------------------------------------------------------------|
| Catalog_no :        | AN0808                                                                                                                |
| Applications :      | WB,ELISA                                                                                                              |
| Reactivity :        | Human,Mouse                                                                                                           |
| Category :          | 抗原抗体                                                                                                                  |
| Size :              | 100µg/50µg/20µg                                                                                                       |
| Gene_name :         | INVS INV NPHP2                                                                                                        |
| Protein_name :      | Inversin (Inversion of embryo turning homolog) (Nephrocystin-2)                                                       |
| Humanswissprot_no : | <a href="#">Q9Y283</a>                                                                                                |
| Immunogen :         | Synthesized peptide derived from part region of human protein                                                         |
| Specificity :       | INVS Polyclonal Antibody detects endogenous levels of protein.                                                        |
| Formulation :       | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                        |
| Source :            | Rabbit                                                                                                                |
| Dilution :          | WB 1:500-2000 ELISA 1:5000-20000                                                                                      |
| Purification :      | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Concentration :     | 1 mg/ml                                                                                                               |
| Storage_stability : | -20°C/1 year                                                                                                          |
