| Ratgene_id :        | <a href="#">171128</a>                                                                                                     |
| Ratswissprot_no :   | <a href="#">P70552</a>                                                                                                     |
| Immunogen :         | The antiserum was produced against synthesized peptide derived from human GCHFR. AA range:31-80                            |
| Specificity :       | GFRP Polyclonal Antibody detects endogenous levels of GFRP protein.                                                        |
| Formulation :       | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                    |
| Source :            | Rabbit                                                                                                                     |
| Dilution :          | Immunohistochemistry: 1/100 - 1/300. ELISA: 1/10000. Not yet tested in other applications.                                 |
| Purification :      | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.      |
| Concentration :     | 1 mg/ml                                                                                                                    |
| Storage_stability : | -20°C/1 year                                                                                                               |
| Msds :              | <a href="#">MSDS_Antibody.pdf</a>                                                                                          |
| Other_name :        | GCHFR; GFRP; GTP cyclohydrolase 1 feedback regulatory protein; GFRP; GTP cyclohydrolase I feedback regulatory protein; p35 |
