

MS4A3 rabbit pAb

| | |
|---------------------|---|
| Catalog_no : | AN3857 |
| Applications : | WB |
| Reactivity : | Human, Mouse |
| Category : | 抗原抗体 |
| Size : | 100µg/50µg/20µg |
| Gene_name : | MS4A3 CD20L HTM4 |
| Protein_name : | MS4A3 |
| Humangene_id : | 932 |
| Humanswissprot_no : | Q96HJ5 |
| Mousegene_id : | 170813 |
| Mouseswissprot_no : | Q920C4 |
| Immunogen : | Synthesized peptide derived from human MS4A3 |
| Specificity : | This antibody detects endogenous levels of MS4A3 at Human/Mouse |
| Formulation : | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| Source : | Rabbit |
| Dilution : | WB 1 : 500-2000 |
| Purification : | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen. |
| Concentration : | 1 mg/ml |
| Storage_stability : | -20°C/1 year |
| Background : | This gene encodes a member of the membrane-spanning 4A gene family. Members of this protein family are characterized by common structural features and similar intron/exon splice boundaries and display unique expression patterns among hematopoietic cells and nonlymphoid tissues. This family member likely plays a role in signal transduction and may function as a subunit associated with receptor complexes. The gene encoding this protein is localized to 11q12, among a cluster of related family members. Alternative splicing may result in multiple transcript variants; however, not all variants have been fully described. [provided by RefSeq, Jul 2008], |
